“Prosecution Accountability”

Category 5: WORKFORCE FOCUS

The Commission encourages and develops legal education programs and training programs for solicitors and their affiliate services, organizes and provides seminars to help increase the effectiveness and efficiency of the prosecution of criminal cases in this State, and acts as a clearinghouse and distribution source for publications involving the solicitors and their affiliate services and provides legal updates on matters of law affecting the prosecution of cases in this State.

The Commission surveys the various Solicitors' offices and affiliate services to ascertain the need for future various training components as well as the skill level. Each Agency Head is responsible for the submission of an annual employee performance evaluation. These evaluations are utilized to determine the criteria for future training programs throughout the various affiliate services.

Category 6: PROCESS MANAGEMENT

The Commission provides blank indictments for the Judicial Circuit Solicitors. Currently, the Commission is in the final phases of providing an electronic process for developing General Sessions Court indictments and Family Court petitions in a prosecutorial-based case management system. The prosecutorial-based case management system will also allow the sharing of criminal and juvenile justice information among the various Solicitors' offices. In addition, the Commission is constructing a website to improve the communication of information relating to the various Solicitors' offices and their affiliate services.

Category 7: RESULTS

The South Carolina Commission on Prosecution Coordination's primary purpose is the coordination of activities involving the prosecution of criminal cases in this State. The South Carolina Court Administration is the State's repository of criminal records for both General Sessions Court and Family Court. Court Administration's year-end reports best describe the activities of the Office of Solicitor as it relates to adult and juvenile prosecutions. In the area of adult criminal prosecution, please consider the following: In FY 2005-2006, the Solicitors of this State disposed of 137,732 in General Sessions Court. During FY 2004-05, they disposed of 112,738. In the area of juvenile criminal prosecution, please consider the following: In FY 2005-2006, the Solicitors of this State disposed of 19,195 Family Court petitions. During FY 2004-05, they disposed of 19,486.

South Carolina Court Administration's goal of the disposition of criminal cases within 180 days from the date of arrest is a significant factor in all prosecutorial decisions. Currently, 80% of all Family Court petitions are being disposed of within 365 days or less and 80% of all General Sessions warrants are being disposed of within 180 days or less. The number of General Sessions Court and Family Court cases handled by the sixteen (16) Judicial Circuit Solicitors have consistently increased over the past decade. However, there is annually an increasing backlog of cases to be addressed. Without proper funding of the Offices of Solicitor and other criminal and juvenile justice agencies, the backlog will continue to increase and cases will become more stale as they await their dispositional dates.
